THE TIRE DECISION GUIDE

Answer just a few questions. We'll narrow it down to the one tire that's right for you.

www.tirerack.com/tdg

FAST, FREE SHIPPING

Over **90%** of orders leave our distribution centers the **same day** they are placed.

QUICK DELIVERY

We can deliver to over **80%** of the US population in **one day**.

CONVENIENT INSTALLATION

See your options on the next page.

GETTING YOUR PURCHASE INSTALLED

SHIP FREE TO ANY ADDRESS

We'll ship your tires directly to your home or office so you can have them installed by your preferred garage or service center.

SHIP FREE TO AN INSTALLER

We carefully select the shops and service centers that are part of our Recommended Installer program. With over 9,000 installers on our list, there is sure to be one near you!

You'll see exact installation costs before selecting an installer and placing your order. You can be sure the price listed is the price you'll pay.

What installers are in your area?

Search by ZIP Code at www.tirerack.com/installer

MOBILE INSTALLATION NOW AVAILABLE IN MANY AREAS!

It's the easiest way to get your tires installed. Our independent Recommended Mobile Installers have specially equipped trucks and professional tire technicians ready to install your tires while you're at work or home.

CONSIDERING WHEELS?

Our ready-to-bolt-on Tire & Wheel Packages make it easy!

POTENZA RE980AS+

Ultra High Performance All-Season

Leveraging a new, updated tread compound, the Potenza RE980AS+ is designed to provide reliable light-snow traction for year-round performance. The noise-optimized tread pattern balances wet traction with pleasant road manners while generating crisp steering response and predictable handling.

POTENZA SPORT

Max Performance Summer

Designed to confidently take the curves, the Potenza Sport utilizes an enhanced tread compound focused on advancing wet traction and stability. Specially engineered pattern geometry ensures even contact patch pressure while promoting water evacuation. Tuned tread block sequencing and lateral notches help provide a comfortable ride and low road noise. Large, uninterrupted circumferential ribs enhance longitudinal grip and combine with broad outboard shoulder blocks for enhanced cornering traction and lateral stability designed to capture every second of performance.

Potenza Sport shown with an O.Z. Racing Alleggerita HLT wheel

VREDESTEIN
TIRES

HYPERTAC ALL SEASON

Ultra High Performance All-Season

Engineered to provide high-speed capability, predictable handling and year-round performance. Wide outboard elements enhance dry handling, while the optimized groove design maintains stability in inclement weather.

Shown with a FLOW ONE Race Spec F1 wheel

EXTREMECONTACT DWS 06 PLUS

Ultra High Performance All-Season

Building upon the successes of its predecessor's long standing popularity with Ultra High Performance All-Season drivers, Continental's ExtremeContact DWS 06 Plus raises the bar once again. Utilizing SPORTPLUS+ Technology and an updated, performance-tuned all-season compound, the tire is built for enhanced handling and braking performance in the dry and wet. Winter performance has also benefited from the advanced compound and combines with X-Sipes and high angle, crisscross grooves for improved grip and stability in snow and on ice.

EXCLUSIVE TEST RESULTS

Check out the data and videos from our most recent Ultra High Performance All-Season test!

PILOT® SPORT ALL SEASON 4

Ultra High Performance All-Season

Featuring an advanced Extreme Silica Compound and Dynamic Response Technology, the Michelin Pilot Sport All Season 4 is designed to offer high levels of traction and control the moment no matter the condition, even in light snow. Large reinforced outboard shoulder blocks help deliver confident handling by increasing lateral grip and stability. The 360° Variable Sipes create interlocking, dynamic biting edges that improve traction in slippery conditions. Michelin's Helio Technology helps the tread maintain its flexibility at lower temperatures.

Shown with an O.Z. Racing Ultraleggera HLT wheel

HTR A/S P03

Ultra High Performance All-Season

Blending dry, wet and wintertime traction with sporty handling and stability, the HTR A/S P03 was built to ensure the drive can always be enjoyed. Sumitomo's advanced "fin"-shaped tread design and "Miura-Ori" siping ensures excellent handling characteristics are combined with strong inclement weather traction.

Shown with an MSW Type 55 wheel

Continental

EXTREMECONTACT FORCE

The ExtremeContact Force is engineered for intense performance from the first lap until the last. The carefully-tuned construction and compound are designed to promote precise handling, along with consistent grip and longevity in competition environments.

GOODYEAR

KUMHO TIRE

AZENIS RT660

Designated as the spec tire for SCCA Solo Spec Coupe Class and developed for competition-ready levels of performance, the Azenis RT660 is ready to chase down the ultimate lap.

ADVAN A052

The ADVAN A052 has become a favorite in SCCA Solo National competition thanks to its incredible longitudinal grip and surprising traction in damp to wet conditions.

EAGLE F1 SUPERCAR 3

The Eagle F1 Supercar 3 is engineered for enthusiasts to excel on the street or track, taking advantage of a race-inspired, high-grip tread compound which combines outstanding performance with impressive durability.

ECSTA V730

Developed for outright performance along with reasonable on-road refinement, the Ecsta V730 leverages an ultra-high grip tread compound and massive outboard shoulder to deliver consistently high levels of grip no matter the venue.

NEW DRIVEGUARD PLUS
Grand Touring All-Season

Keeping your journey in motion, the DriveGuard Plus provides enhanced luxury and increased year-round traction, along with the added peace of mind from Bridgestone's next generation run-flat technology that maintains mobility even after experiencing a tire puncture for up to 50 miles at up to 50 mph.

Shown with an ALUTEC Monstr wheel

COMING SOON!

NEW WEATHERPEAK
Grand Touring All-Season

The WeatherPeak is Bridgestone's "Next Evolution of All-Season", built to offer enhanced wet and winter performance.

ADVANTAGE CONTROL
Grand Touring All-Season

The Advantage Control is designed to provide confident control and handling in all road conditions, along with a smooth, quiet ride and durable tread wear. The five rib tread design is engineered to minimize road noise while generous lateral grooves increase hydroplaning resistance. When the weather turns, block edge notches and extensive siping help develop the grip needed for inclement weather traction and stability.

ALENZA AS ULTRA

Crossover/SUV Touring All-Season

Developed for a luxurious ride and predictable traction for any condition, the Alenza AS Ultra is designed to elevate your drive. A high-silica compound enhances inclement weather stability and QuietTrack Technology helps reduce noise for a refined driving experience.

Shown with a Sport Tuning M1 wheel

ALTIMAX 365 AW

Grand Touring All-Season

Built to provide comfortable daily driving and confidence for each season's weather conditions, the AltimaX 365 AW utilizes advanced designs like Waved Longitudinal Grooves and Sinusoidal Siping for dependable performance.

Shown with an ASA GT15 wheel

Offer valid March 1 - April 30, 2022. Visit tirerack.com/generaloffer for details.

GOODYEAR

ASSURANCE COMFORTDRIVE
Grand Touring All-Season 

Goodyear's Assurance ComfortDrive is a sensibly luxurious tire designed to deliver a smooth ride and pleasant noise comfort. ComfortFlex technology helps absorb impacts while the noise-reducing tread pattern keeps airborne noise to a minimum to craft a premium driving experience. Evolving Traction Grooves and TredLock Technology help drivers relish the rain and ensure traction in inclement weather.

GET **\$75 BACK** ON A SET OF FOUR ASSURANCE COMFORTDRIVE TIRES. AN ADDED BONUS OF **+\$125 MORE** WHEN YOU USE THE GOODYEAR® CREDIT CARD.

Offer valid April 1 - June 30, 2022. Visit tirerack.com/goodyearoffer for details.

Firestone

DESTINATION LE3

Highway All-Season • Light Truck/SUV

The Destination LE3 was developed to provide a comfortable, quiet ride with long tread life and confident traction in wet and wintry weather. During testing, our team praised the satisfying performance across all metrics. The tire's steadfast performance ended up creating a well-rounded product that is more than the sum of its parts.

GET UP TO **\$90** BACK BY MAIL ON A FIRESTONE VISA® PREPAID CARD

GET \$60 WITH PURCHASE OF 4 DESTINATION LE3 TIRES + \$30 WHEN YOU USE YOUR CFNA CREDIT CARD

Tire Rack includes Tire Road Hazard Protection with the sale of almost all passenger, light truck and SUV tires for two years from the date of purchase. Potholes and nails, beware!

www.tirerack.com/roadhazard

CROSSCLIMATE2

Grand Touring All-Season 

The CrossClimate2 is designed for daily driving comfort combined with confident performance in dry, wet and light snow conditions sufficient to receive the three-peak mountain snowflake (3PMSF) symbol. The V-Formation tread design is engineered to promote even wear and increase dynamic traction by efficiently distributing load forces. Longitudinal grip is promoted by the center portion of the tread with blocks that align with fore aft forces, while lateral grip is bolstered by the steep angled outboard block orientation.

COOPER TIRES

ENDEAVOR PLUS
Crossover/SUV Touring All-Season
Developed to provide balanced, all-season performance and satisfying reliability. Generous siping creates biting edges for stability in inclement weather and the included Wear Square Indicator helps monitor the tire's tread wear.

Shown with a RIAL Kodiak wheel

ENDEAVOR
Grand Touring All-Season
Delivering a practical blend of comfort, handling and durability, the Endeavor utilizes a tread pattern and construction optimized to reduce noise and evenly distribute contact pressure.

Shown with an American Eagle AE901 wheel

Get a **\$40** Cooper Tires Visa® Prepaid Card or Virtual Account when you buy a new set of 4 Endeavor or Endeavor Plus tires.

KUMHO TIRE

All-Ways, Go With you

ROAD VENTURE MT71

Off-Road Maximum Traction

Built to conquer difficult off-road conditions while retaining on-road competence and highway stability, the Road Venture MT71 is up for any adventure. The aggressive, high-void tread design features a durable Tri-Blend compound for enhanced cut-and-chip resistance and robust biting edges for extreme off-axis traction.

Shown with a Sport Terrain Dune wheel

NEW **ROAD VENTURE AT52**
On-/Off-Road All-Terrain

Combining rugged performance in difficult off-road conditions and confidence on-pavement, the Road Venture AT52 is built to go the distance. Extreme Side-Biters help increase grip in loose, rutted terrain and add puncture protection, while on-road traction is maintained by an extensive network of grooves and high-density siping.

Shown with a Sport Terrain TK14 wheel

BAJA BOSS A/T

On-/Off-Road All-Terrain

Taking advantage of their illustrious history of pushing the limits of performance and winning, Mickey Thompson continues to innovate with their Baja Boss A/T. The aggressive, asymmetric tread design offers powerful loose surface traction for off-road pursuits, while maintaining on-road stability and traction for the daily drive.

Shown with a Black Rhino Warlord wheel

WRANGLER WORKHORSE AT

On-/Off-Road All-Terrain

Delivering dependable performance you can count on, the Wrangler Workhorse AT features a durable, chip and tear resistant compound molded into large tread blocks with open grooves for capable off-pavement grip.

Shown with a Sport Terrain Alpine wheel

GET **\$50 BACK** ON A SET OF FOUR WRANGLER WORKHORSE AT TIRES. AN ADDED BONUS OF **+\$50 MORE** WHEN YOU USE THE GOODYEAR® CREDIT CARD.

Offer valid April 1 - June 30, 2022. Visit tirerack.com/goodyearoffer for details.

TRAIL-TERRAIN T/A

On-/Off-Road All-Terrain

Ready for the adventure and everything in between, the BFGoodrich Trail-Terrain T/A balances its off-road proficiency with on-road comfort. Closed shoulder elements promote predictable highway handling and help minimize road noise from the more aggressive inboard pattern for when the pavement ends.

WHAT'S THE DIFFERENCE?
How does the new Trail-Terrain T/A compare to the popular All-Terrain T/A KO2?

Our own Tire Information and Testing Manager, TJ Campbell, sits down with Brandon Sturgis, Global Product Manager at BFGoodrich to discuss.

HIGH PERFORMANCE BRAKE SYSTEMS™

SELECT SPORT AXLE PACKS

(Products not sold separately)

- Two Select Sport Slotted/Drilled Rotors
- Axle Set of Street Select Pads

Stopping Power — — — — — +
Low Noise — — — — — +
Low Dust — — — — — +

WARNING: BRAKES ARE A SAFETY-CRITICAL PART OF A MOTOR VEHICLE

Brake components should be installed by a competent mechanic in a professional manner. Any incorrect installation of brake components can cause a major safety problem or an accident. If you are not a competent, qualified mechanic you should not attempt to install these products, but should take the vehicle to a vehicle dealer or competent automotive mechanic for their installation. In some cases, servicing or replacing brake hardware at the time of rotor installation may also be required. Brake rotors are wear items and as such, should be inspected regularly and replaced as necessary.

Street & Highway Use: Brake pads should typically be replaced when approximately 1/8" to 3/16" of friction material remains on the steel backing plate. Brake rotors should be replaced before their thickness has reached the prescribed "Worn Rotor Minimum Thickness" limit (expressed in mm) engraved on the edge of the brake disc. Plain rotors may be turned on a brake lathe to remove scoring and to true the disc surfaces until this minimum thickness has been reached. Drilled and slotted rotors may not be able to be turned and should be replaced if they become scored.

Track & Competition Use: Due to the extremes of heat and pressure encountered by brake systems used for track and competition applications, all brake system components (pads, rotors, calipers, lines, hardware and fluid) must be compatible and should be inspected between sessions. Brake pads and rotors should be replaced before they reach the wear limits described above.

BRAKE PADS FROM

NEED ADVICE?

800-981-3783

Call our sales specialists to get personalized, expert advice.

PREMIUM

Use this pad type if you desire a minimum amount of brake dust and noise with a similar-to-moderate increase in stopping power and fade resistance versus your O.E. brake pads.

AKEBONO EURO ULTRA-PREMIUM CERAMIC PADS

AKEBONO ProACT™ CERAMIC PADS

HAWK PERFORMANCE CERAMIC PADS

CENTRIC POSI QUIET CERAMIC PADS

CENTRIC POSI QUIET SEMI-METALLIC PADS

STOPTECH STREET PADS

PERFORMANCE STREET

Use this pad type if you are an enthusiast driver who operates your vehicle in a spirited manner on the street and desires a noticeable increase in brake performance versus your O.E. brake pads. A moderate increase in brake dust and noise may occur depending on the vehicle application.

AKEBONO PERFORMANCE PADS

HAWK HIGH PERFORMANCE STREET 5.0 PADS

HAWK HPS PADS

STOPTECH SPORT PADS

WARNING: One or more of the products on this page contain a chemical known to the State of California to cause cancer and/or birth defects or other reproductive harm. www.P65Warnings.ca.gov.

Offer valid Mar. 1 - Apr. 30, 2022.
tيرrack.com/hawkoffer

AUTOCROSS/TRACK

Use this pad type if you are participating in high-speed track events, lapping days or wheel-to-wheel competition. The aggressive nature of the friction material is not recommended for street use, but will provide extreme stopping power and fade resistance on the track.

HAWK HP PLUS

Ideal for the demands of autocross, this compound offers smooth, predictable torque for a wide variety of applications.

HAWK ER-1

Lap after lap, hour after hour, this new endurance compound offers consistent performance that is ideal for the most intense sports car racing environments.

FOR TRACK USE ONLY

- BLUE 9012** 250°-1,000°F
- DTC-80** 500°-1,700°F
- DTC-70** 400°-1,600°F
- DTC-60** 400°-1,600°F
- ER-1** 400°-1,600°F
- HT-10** 300°-1,300°F

⚠ Due to the aggressive nature of the Hawk Performance Motorsports Compound pads, they are not recommended for street use.

TRUCK & SUV

Use this pad type if you have installed a larger diameter Tire & Wheel Package, you often tow or heavily load your light truck or SUV and desire additional stopping power and fade resistance.

MOTORSPORTS SPONSORSHIPS

Supporting the activities enjoyed by the grassroots motorsports enthusiast is Tire Rack's way of thanking many of its loyal customers and introducing many others to the fun and challenge of the sport.

Tire Rack is the Official Tire Retail Partner of the SCCA

The 2022 season marks Tire Rack's 28th year as the title sponsor of the Sports Car Club of America (SCCA) National Solo program. The SCCA offers one of the most accessible and cost-effective ways to experience the thrill of competing in a vehicle by simply strapping on a helmet and buckling your seatbelt. The SCCA Solo program offers driving enthusiasts thousands of events across the country to participate in.

www.scca.com

Affordable, After-work Track Time for Rookies and Veterans in their Street Cars

SCCA Track Night in America driven by Tire Rack is a gathering place for drivers of all levels to share their passion for cars. Participants are split into three levels based upon a driver's comfort level and skill set. Rookies get extra attention from the gate through their on-track sessions.

www.tracknightinamerica.com

Tire Rack BMW CCA Club Racing Series

Since 1998, Tire Rack has been the title sponsor of the BMW CCA Club Racing Series. Events are held across the U.S. and Canada and involve hundreds of licensed racers. For those that are new to track competition there are a number of Club Racing Schools that help provide the experience necessary to ensure a safe, fun and competitive event for all interested novices.

www.bmwccaclubracing.com

The Simplest Path to Real Road Racing

Since 2019, Tire Rack has been the title sponsor of the TireRack.com ChampCar Endurance Series. Entering its 13th season, this series is for people that have always wanted to go road racing without all the hassles, huge rulebook, or obscene expense. All you need is a valid drivers license, some safety gear, and a race car!

www.champcar.org

Grassroots Motorsports \$2000 Challenge Presented by Tire Rack

\$2000 Budget. Three Events. Zero Excuses.

Penny-pinching and extreme speed meet at the Grassroots Motorsports \$2000 Challenge presented by Tire Rack—often with spectacular results. Cars from each end of the financial spectrum, from \$2000 budget junkyard builds to brand new supercars, compete in autocross, drag racing, and concours competition. Does money equal speed, or will one of the \$2000 builds take the top prize? We'll find out in Gainesville, Florida this October.

www.2000challenge.com

2022 Tire Rack One Lap of America

The 38th running of Brock Yates' extreme challenge for driving enthusiasts will begin on April 30th. Featuring eight days of competition between many of North America's fastest street-legal cars, the teams will complete 18 timed competition events during a week of skid pad, autocross, drag strip, racetrack and highway transit!
