THIS LIMITED WARRANTY AND ADJUSTMENT
POLICY IS NOT A WARRANTY THAT YOUR TIRE
WILL NOT FAIL OR BECOME UNSERVICABLE IF
NEGLECTED OR MISTREATED

1. ELIGIBILITY

This Limited Warranty and Adjustment Policy applies to the original owner of new General Tire brand passenger and light truck (LT) tires that are new replacement market tires bearing the General Tire brand name and D.O.T. Tire Identification Number, operated in normal service, and used on the same vehicle on which they were originally installed according to the vehicle manufacturer's recommendations. Additionally, tires used in commercial service including, but not limited to, taxicabs, police cars, emergency vehicles, non-passenger service vehicles and tires used in competition are not eligible for the Tread Wearout Coverage set forth in Section 4 of this Limited Warranty and Adjustment Policy.

Tire(s) on any vehicle registered and normally operated outside the United States and Canada are excluded from eligibility under this Limited Warranty and Adjustment Policy.

2. WHAT IS THE ADJUSTMENT POLICY AND HOW LONG IS IT APPLICABLE?

BASIC COVERAGE

Eligible Tires are covered by this Limited Warranty and Adjustment Policy for a maximum of 72 months from the date of purchase.*

WHERE TO GO FOR WARRANTY REPLACEMENT

Please return your tires to a General Tire brand tire dealer. You must present the original sales invoice at the time of your claim.

FREE REPLACEMENT PERIOD

If an eligible General Tire brand passenger or light truck tire becomes unserviceable from a condition other than those listed under Section 5 during the first 12 months or first 2/32nds (1.6mm) of treadwear (whichever comes first) it will be replaced with a comparable** new General Tire brand tire FREE OF CHARGE, including mounting and balancing. Owner pays all applicable taxes.

TEMPORARY SPARE TIRES:

This policy also extends to the original owner of the General Tire Brand Temporary Spare Tire that are new replacement market tires bearing the General Tire D.O.T. serial number. An eligible Temporary Spare Tire under this Policy must have been operated in normal service, used on the same vehicle on which they were originally installed according to the vehicle manufacturer's recommendations, and display adjustable conditions as described in this Policy.

This Policy is for a maximum period of 72 months from date of purchase*, determined by the original sales invoice showing date purchased. If a Temporary Spare Tire becomes unserviceable from a condition other than those listed in this Policy during the first 1/32nd (0.8mm) of treadwear, then it will be replaced with a comparable new General Tire brand Temporary Spare Tire. Mounting and balancing are included free of charge. The owner pays all applicable taxes. After this “Free Replacement Policy” for your Temporary Spare Tire expires, no adjustment will be made.

AFTER THE FREE REPLACEMENT PERIOD

The tire may still be eligible for a pro rata replacement for 72 months from date of original purchase* until the tread is worn down to the tread wear indicators (2/32nds of an inch or 1.6 mm of tread remaining.) If an eligible tire becomes unusable under the stipulations of this Limited Warranty and Adjustment Policy it will be replaced charging the owner a pro-rated amount. Owner pays all applicable taxes (including F.E.T.), mounting and balancing charges.

The replacement tire price will be determined by multiplying the percentage of the useable tread worn by the Dealers Price (excluding all applicable taxes) at the time of the adjustment. The useable tread is the original tread down to the tread wear indicators (2/32nds of an inch or 1.6 mm of tread remaining.)

3. CUSTOMER SATISFACTION TRIAL

All General Tire brand passenger and LT tires bearing the General Tire name and D.O.T serial numbers are covered by the 30-Day Customer Satisfaction Trial.

- 45 Day Trial Period for the Altimax HP, Altimax RT, Altimax RT⁴³ Grabber HTS, and G-MAX AS-03.

This applies only to the original purchaser of a new set of four General Tire brand passenger tires. **Tires received as original equipment on a new vehicle are not covered by the 30-Day Customer Satisfaction Trial.**

If for any reason, other than an excluded condition listed under Section 5, you are not satisfied with your new set of four tires within 30 days from date of purchase, you may exchange all or any one of them for a corresponding number of the same tires or purchase another set of a different type of General Tire brand tires.

- 45 Day Trial Period for the Altimax HP, Altimax RT, Altimax RT⁴³ Grabber HTS, and G-MAX AS-03.

The returned tires will be removed and the replacement tires mounted and balanced at no cost to you. If you wish to exchange for another set of tires which

is at a higher cost, you must pay the upgrade from the original purchase price, including all applicable taxes. If you wish to exchange for another set of tires which is at a lower cost, you will receive a refund of the difference in cost.

HOW DO YOU RETURN YOUR TIRES DURING THE TRIAL PERIOD?

Within 30 days from the date of purchase (45 days for the Altimax HP, Altimax RT, Altimax RT⁴³, Grabber HTS and G-MAX AS-03), you must return your tires to a General Tire brand tire dealer from which they were purchased. You must present the original sales invoice, along with this Limited Warranty and Adjustment Policy.

Reason for dissatisfaction must be explained to the dealer (appearance, ride, and handling) and noted on the dealer-supplied copy of the General Tire Limited Warranty Claim. The form must be signed by the consumer and the replacement invoice showing the purchase of another brand of General tires(s) must accompany the claim form and tire return.

4. EXTRA COVERAGE

General Tire brand tires are eligible for additional protection under this Limited Warranty and Adjustment Policy as follows:

TREAD WEAROUT COVERAGE

The General Tire brand tires listed below are warranted against wearout up to the mileage/kilometers coverage shown in this section, even though the actual mileage/kilometers you may get from your tires may vary because of driving habits and road conditions. Subject to the provisions of Section 5 and 7 below, if one of the tires listed in this section wears out before the listed mileage/kilometers, General Tire will adjust the tire on a pro-rata basis. "Wearout" means that the tire's tread has worn evenly down to the tread wear indicators (2/32nds of an inch or 1.6 mm of tread remaining). "Pro- rata" for this Tread Wearout Coverage is measured by the odometer readings at the time of the tire's purchase, as shown by the original tire sales invoice, and at the time of replacement. In addition, you must present a completed rotation schedule contained in the original owner's copy of the tire's Limited Warranty and Adjustment Policy.

- **Tire(s) that have not been rotated at least every 6,000 to 8,000 miles (10,000 to 13,000 Kilometers) as evidenced by a completed rotation schedule are excluded.**
- **Tire(s) in service for more than 72 months of service regardless of mileage are not covered.**
- **On vehicles with staggered / split fitments (different size tires on front and**

rear axle), tires cannot be rotated between the front and rear axle. Without rotation of tires between the front and rear axle, the expected mileage / kilometers before wearout is significantly lower, especially on the rear axle. Therefore, the tread wearout coverage for tires on the rear axle of these vehicles will be 50% of the standard tread wearout coverage for the product line.

The owner pays mounting, balancing and all applicable taxes (including F.E.T) under the Tread Wearout Coverage.

	Miles	Kilometers
Grabber AT ² (excludes LT and floatation sizes)	60,000	96,000
Altimax HP		
V-Rated	40,000	64,000
H-Rated	55,000	90,000
Altimax RT	70,000	112,000
Altimax RT ⁴³	75,000	120,000
G-MAX AS-03	40,000	64,000
Grabber HTS		
S & T Rated	60,000	96,000
H & V Rated	45,000	72,000
LT Sizes	45,000	72,000

You will receive a comparable** new General Tire replacement with payment of the replacement price based on the percentage of actual mileage/kilometers received to the mileage/kilometers covered. Your replacement cost will be determined by dividing the actual mileage/kilometers delivered by the miles warranted and multiplying the result times the current selling price of an equivalent or comparable replacement tire. Consumer pays for mounting and balancing and any other additional charges such as taxes or the acceptance of a higher priced replacement tire.
